CLIENT NOTICE

Notification Date: 10 March 2026

Scheduled Electrical Maintenance Impacting Blood Bank Services

SBMF will undergo scheduled electrical maintenance this Friday, March 13, resulting in a planned power outage from approximately 4:30–8:00 p.m.

During the outage, our operations will shift to downtime procedures:

- To reach the SBMF Blood Bank, dial the on-call phone: 574-309-5558.
- We will be unable to receive faxes, so all orders must be called in.
- Product shipments will follow downtime protocols.
- Reference testing, irradiation (note: we will irradiate some O and A units in advance), and aliquots will be delayed during this window.

If you feel this downtime will impact you, please contact Mary Youngs, SBMF Blood Bank Services Manager, to discuss details and options to plan accordingly.

Thank you in advance for your collaboration.
